Risk Assessment

Inbox x

Alexa Walker

to me, Lisa Talbot, Kat Zimmerman

(this morning)

Hi everyone,

Kat let me know that you wanted my opinion on some of the risks for the UI features. The features that she specified were the Off-white backgrounds, the Landscape and portrait mode, Adjustable font sizes, and Animated page turning. Here are what I think the risks for those features would be!

- Off-white background - Low Risk
- Landscape and Portrait mode - Moderate Risk
- Adjustable font sizes - Moderate Risk
- Animated page turning - Moderate Risk

Hope that helps you out! Let me know if you needed more risks assessed.
